

Non-CDT 2014 Assigned Measure ID (e.g., NCF 6)	Measure/Measure Title	Measure Description	ICD-9-CM Code	Denominator	Numerator	Exclusions	Exclusion/Exclusion	Measure Type: Allowing International Exchange, Outcomes, Patient Engagement/Experience	DOI Number	eCQM Number	Measure of Activity Performance Data: Is calculated as the Num. of Cases, Type 1, with the numerator data to determine the number of performance cases, which are included in the numerator.	Measure of Quality Performance Data: Is calculated as the Num. of Cases, Type 2, with the numerator data to determine the number of performance cases, which are included in the numerator.	Measure Measurement Criteria	Exclusion Measure Exclusion Criteria	Continuum Measure Score Type (1-5)	RAA Adjustment Criteria
NCF 6	High Fracture Mobility Rate (HF 16)	In hospital deaths per 1,000 hospital discharges with hip fracture or a hip fracture repair in the prior year. The rate ratio is the ratio of the rate ratio for the patient age 75 and older to the rate ratio for the patient age 65-74.	Effective Clinical Care	Did the patient expire during the hospital stay?	Discharge Patients aged 65 and older who are discharged from the hospital with a principal diagnosis of a hip fracture.	1. Patients discharged from the hospital for a principal diagnosis of a hip fracture in the encounter. 2. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter. 3. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter.	N/A	Outcome	0004	N/A	0-5	0-5	Yes	Yes	Yes	No
NCF 7	Diagnosis: paronychia of fingers, of toe, with a diagnosis of abscesses who are either having right or left or either in care, & practice at least once within 12 months.	The measure is used to identify the percentage of patients regardless of age with a diagnosis of paronychia of fingers, of toe, with a diagnosis of abscesses who are either having right or left or either in care, & practice at least once within 12 months.	Effective Clinical Care	Did the patient expire during the hospital stay?	Discharge Patients aged 65 and older who are discharged from the hospital with a principal diagnosis of a hip fracture.	1. Patients discharged from the hospital for a principal diagnosis of a hip fracture in the encounter. 2. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter. 3. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter.	N/A	Process	0005	N/A	0-5	0-5	Yes	Yes	Yes	No
NCF 11	Median Time to Risk Management for Long Bone Fracture	Median time to risk management for long bone fracture.	Effective Clinical Care	Did the patient expire during the hospital stay?	Discharge Patients aged 65 and older who are discharged from the hospital with a principal diagnosis of a hip fracture.	1. Patients discharged from the hospital for a principal diagnosis of a hip fracture in the encounter. 2. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter. 3. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter.	N/A	Process	0002	N/A	0-5	0-5	Yes	Yes	Yes	No
NCF 13	Diagnosis: Management Following Fracture of Long Bone of Distal Humerus, the elbow and forearm aged 65 years and older	Percentage of patients aged 65 years or older with a diagnosis of fracture of long bone of distal humerus, the elbow and forearm aged 65 years and older who are either having right or left or either in care, & practice at least once within 12 months.	Effective Clinical Care	Did the patient expire during the hospital stay?	Discharge Patients aged 65 and older who are discharged from the hospital with a principal diagnosis of a hip fracture.	1. Patients discharged from the hospital for a principal diagnosis of a hip fracture in the encounter. 2. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter. 3. Patients discharged from the hospital with a principal diagnosis of a hip fracture in the encounter.	N/A	Process	0003	N/A	0-5	0-5	Yes	Yes	Yes	No
